# SHE SUPERVISOR

## COURSE DESCRIPTION

This course will give supervisors a general overview of what SHE is about and what is required of them to manage SHE at their level.

## DURATION

3 days

## COURSE CONTENT

### Specific Outcome 1

Explain safety, health and environmental requirements in a workplace.

The following aspects are covered in this unit standard:

- Principles of Supervision
- Health and Safety Theories and Basic Philosophy
- Legislation
- Technical Safety
- Environment
- Occupational Health

### Specific Outcome 2 (Practical assessment)

Apply safety, health and environmental principles and procedures in a workplace.

### Specific Outcome 3 (Practical assessment)

Exercise safety, health and environmental responsibilities in a workplace.

**Specific Outcome 2 and 3 are covered with a practical assignment done in the workplace.**
